

Speaker Profile

Dr. Stevens M. Brumbley
Senior Research Scientist
Australian Institute for
Bioengineering &
Nanotechnology
BSES Limited

Dr Stevens Brumbley got his undergraduate degree at the University of Oregon in 1985 and a PhD in Plant Pathology at the University of Georgia in 1991. He is currently a Senior Research Scientist with the Australian Institute for Bioengineering and Nanotechnology at the University of Queensland. His team is based at the BSES Limited David North Plant Research Centre. His research is focused on the metabolic engineering of sugarcane for production of industrial chemicals with a focus on bioplastics.
